The graduating class of 1978 is proud to graduate from Adolfo Camarillo High School in a year that has been one of the best for student organization, spirit, and involvement. This class has seen a lot of changes in its 4 years at Camarillo High. It was the last class to be put through "Slave Day," it was the last class to experience the 7 period day, and it was the first class to graduate in the James Ackerman Stadium while being surrounded by a new addition to the high school, a 6 foot metal fence. Along with 1978 came the title "Seniors" and with that title the chance to register first, and to step onto the Senior Patio and know that you really belonged. Now with the 1977-78 school year coming to a close, the Graduates of Adolfo Camarillo High School wish to say goodbye to a school that has taught them how to learn, how to respect, how to set goals and reach them, but has never let them forget how to have fun. Our thanks to the teachers, administrators, counselors and the staff for making Adolfo Camarillo High School a school of which to be proud.

A year to be Remembered

UNDERCLASSMEN

All Underclassmen have less time on this campus than they think. Very soon they will be walking in a graduation ceremony. Four years may seem like a long time now but, after it is all over, they will wonder where the years went. Best of luck in the future. Enjoy school now.

FACULTY

Mrs. Johns Becomes Principal, Sets High Goals

Each of us must look back on this closing school year and assess its value. Most of us will consider it a good year. We may have been overcrowded and short of money, but we were not short of talented students and parents and certainly not short of spirit and pride in our school community.

But in that assessment of the year we will find many things that need changing. It is as important to remember the less desirable experiences as it is to remember the pleasant ones. Change in the future must come through the experiences that were dissatisfying. If we, as a faculty and administration, have given you the knowledge and helped develop the skills that enable you to cope and to effect good changes, then we have succeeded.

We wish you well.

In Memoriam

Ronald Cox

Another day passes . . .

and the sun sets

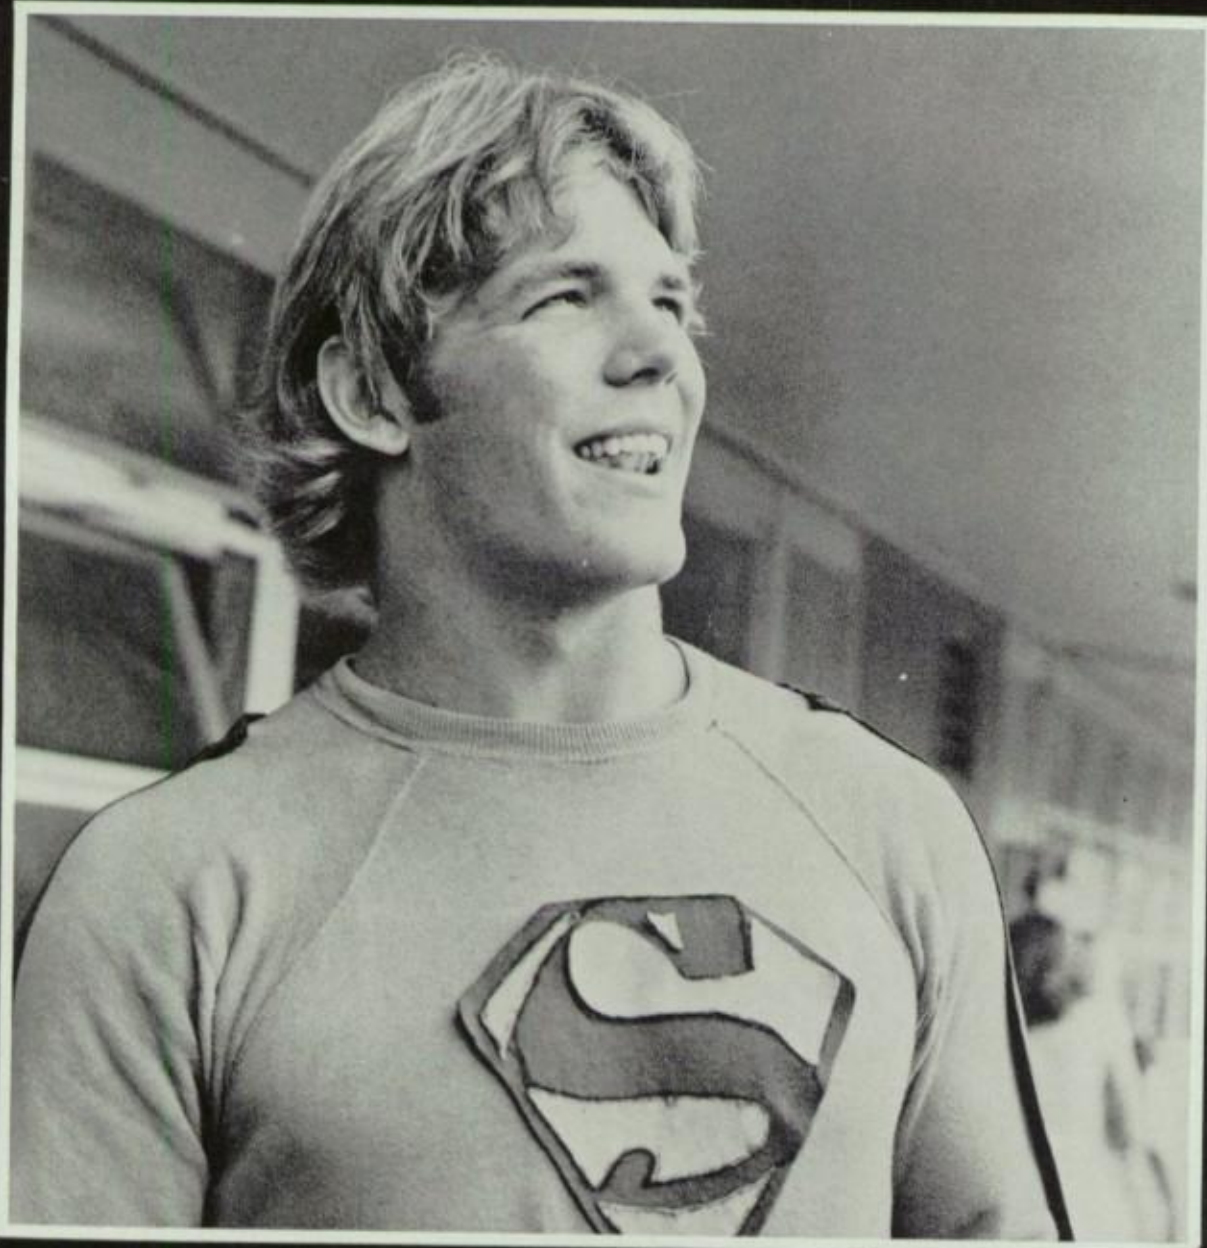

1978 was truly a different year. There seemed to be a new spirit on our campus. Camarillo, as a school, saw so much new student involvement. Our school was fortunate to receive many gifted people four years ago, and now another generation of Adolfo Camarillo High School graduates will make their mark on the earth. May all of your ventures in the future be happy ones. Then, sooner than you think, you will find your place in the sun.

And our day in the sun

is over . . .
